

How it works?

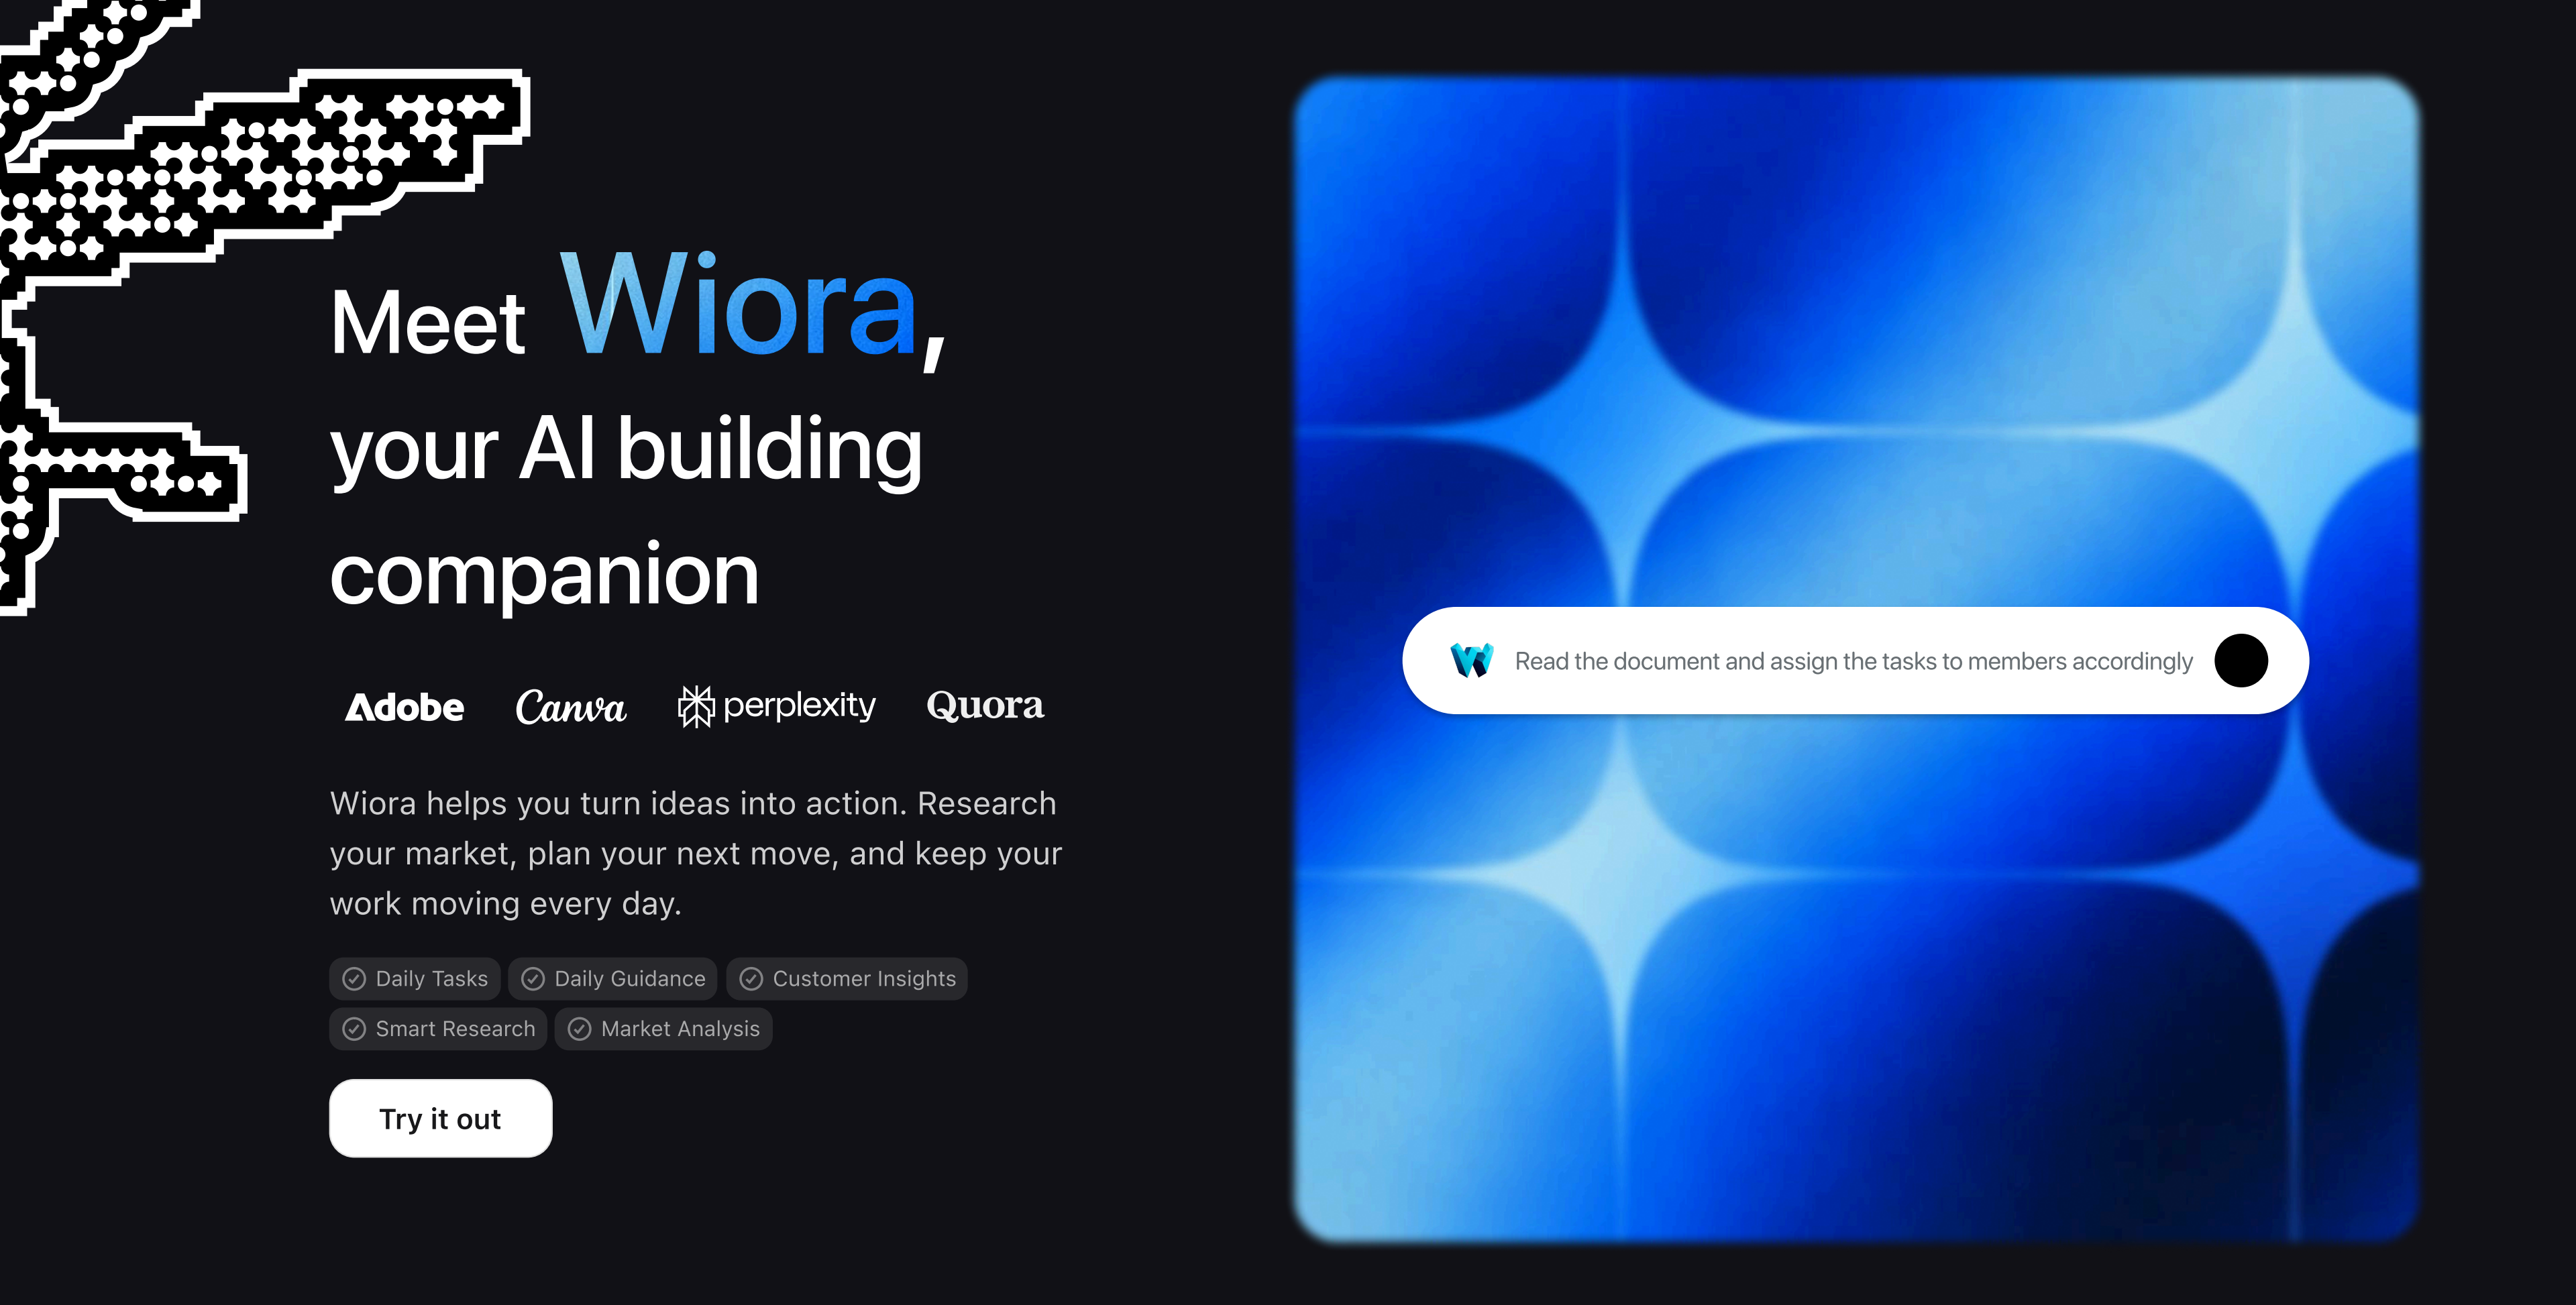

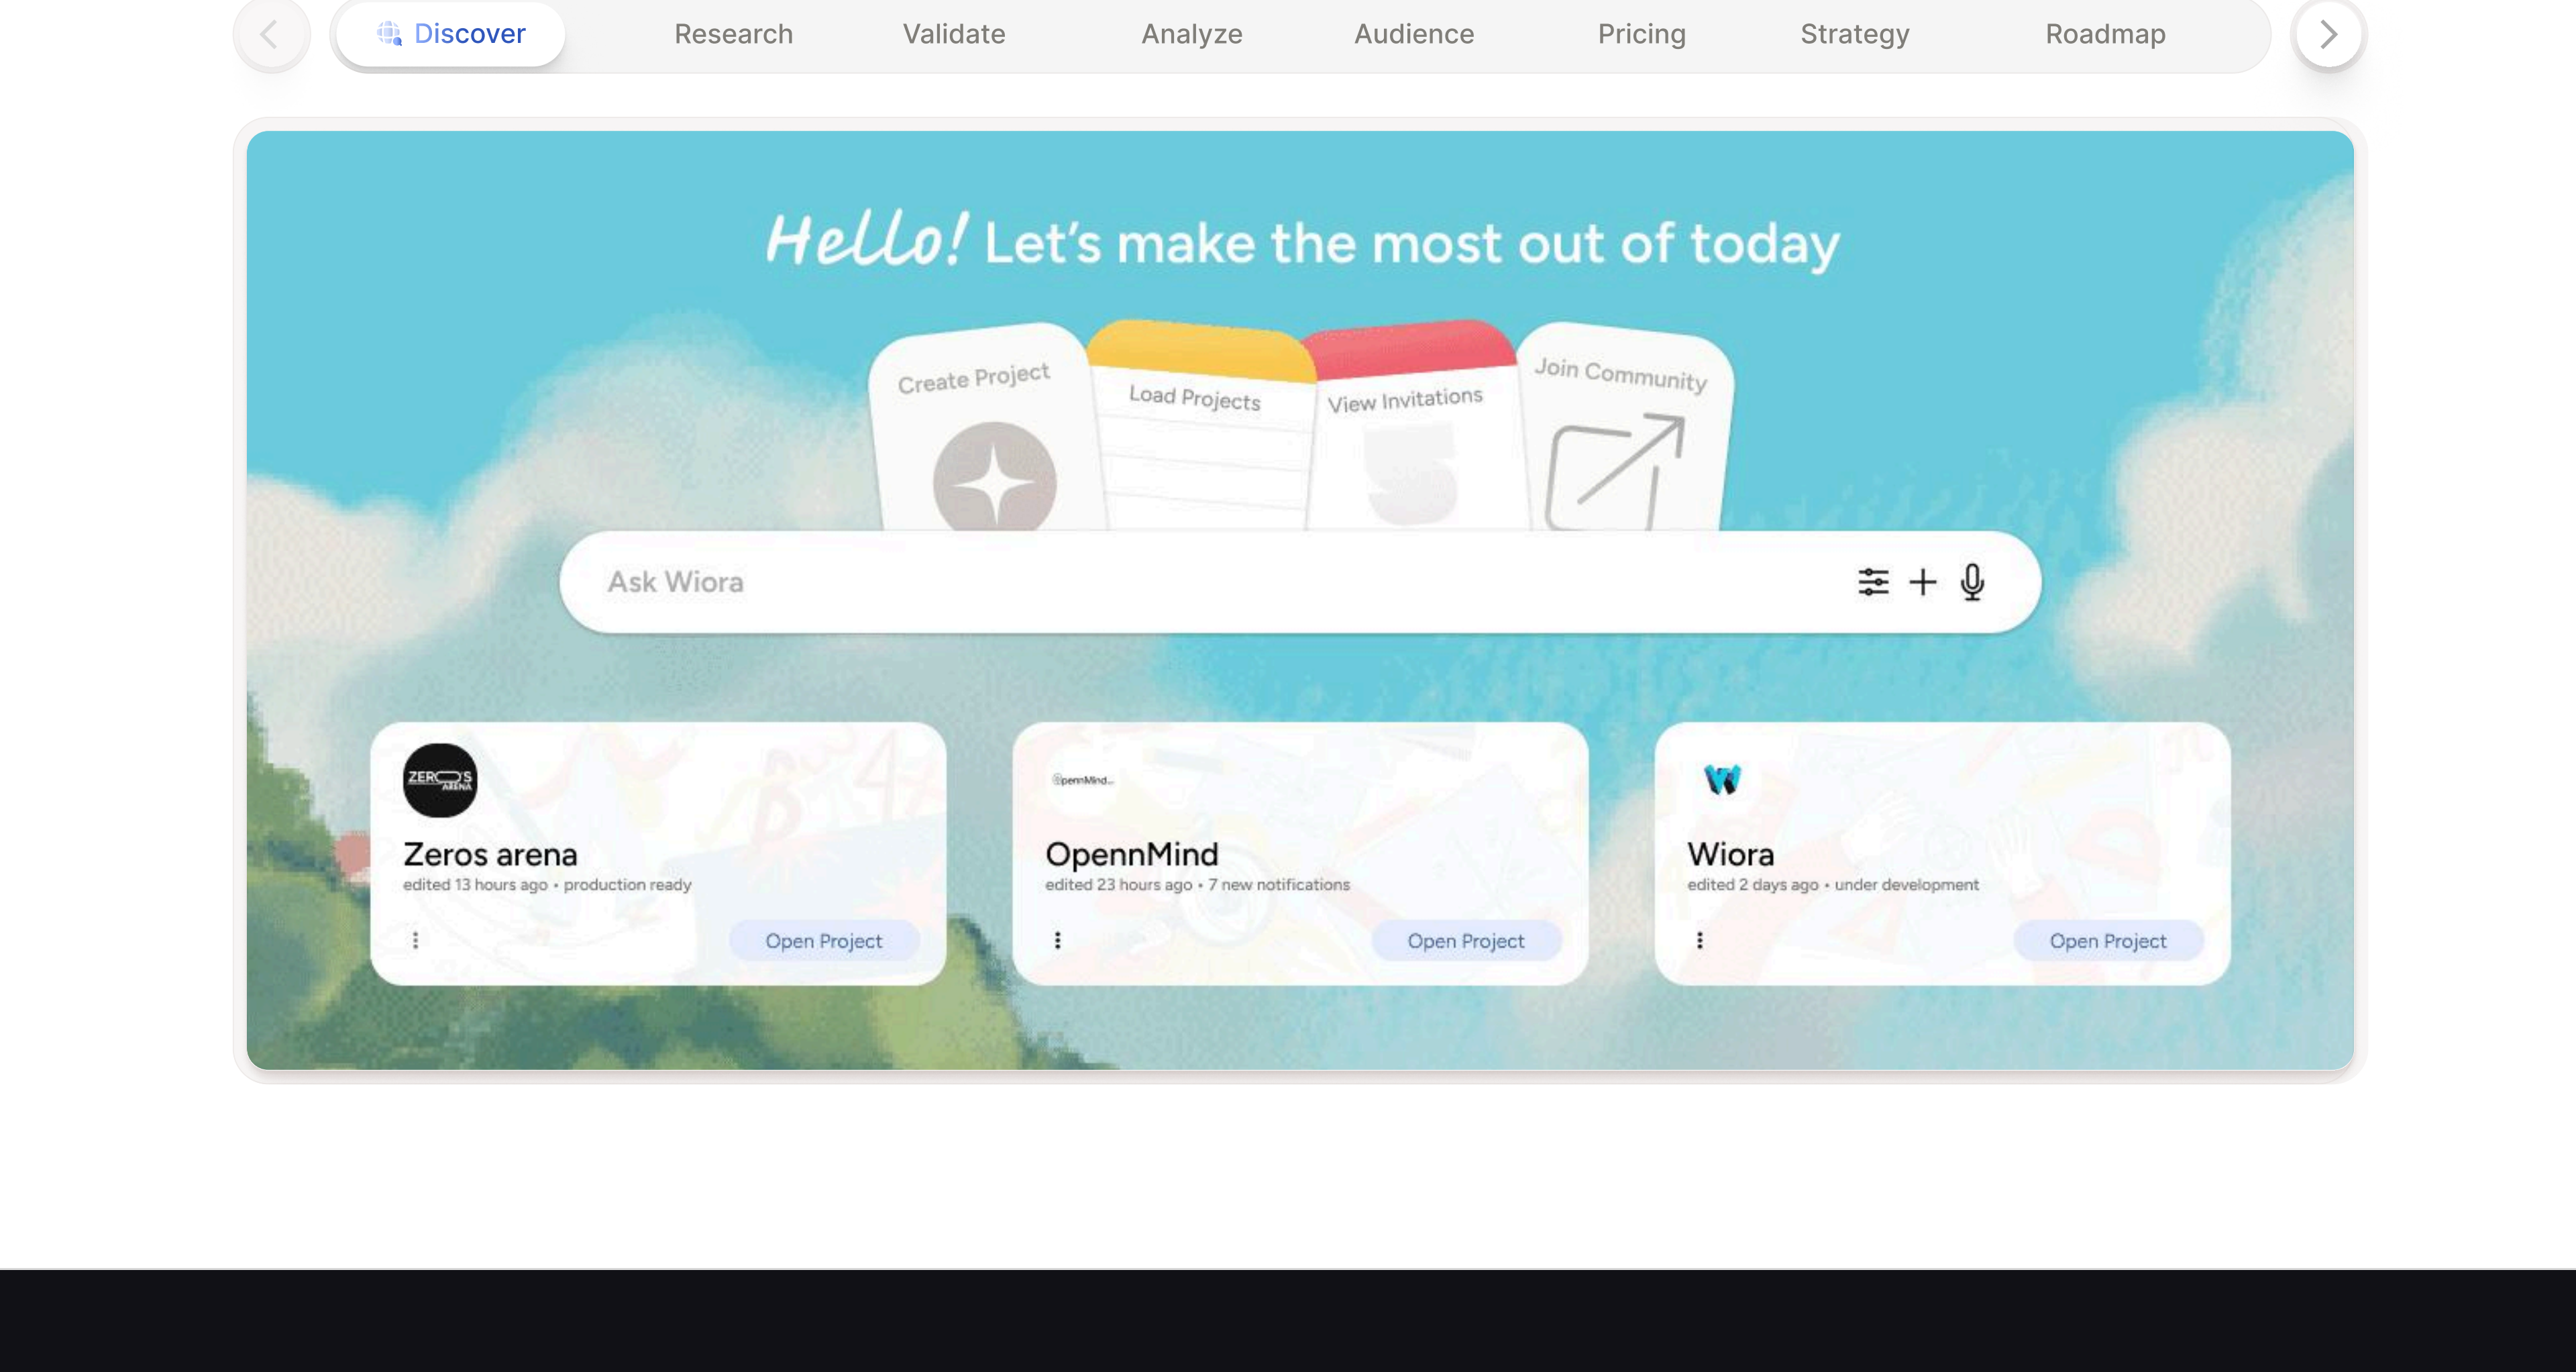

- 1 Build business apps, fast
Prompt to build the software you need.
- 2 Connect your data securely
Build apps that work with your existing tools.
- 3 Deploy to your users
Ship your app to internal or external users.

Bring your entire workspace together.

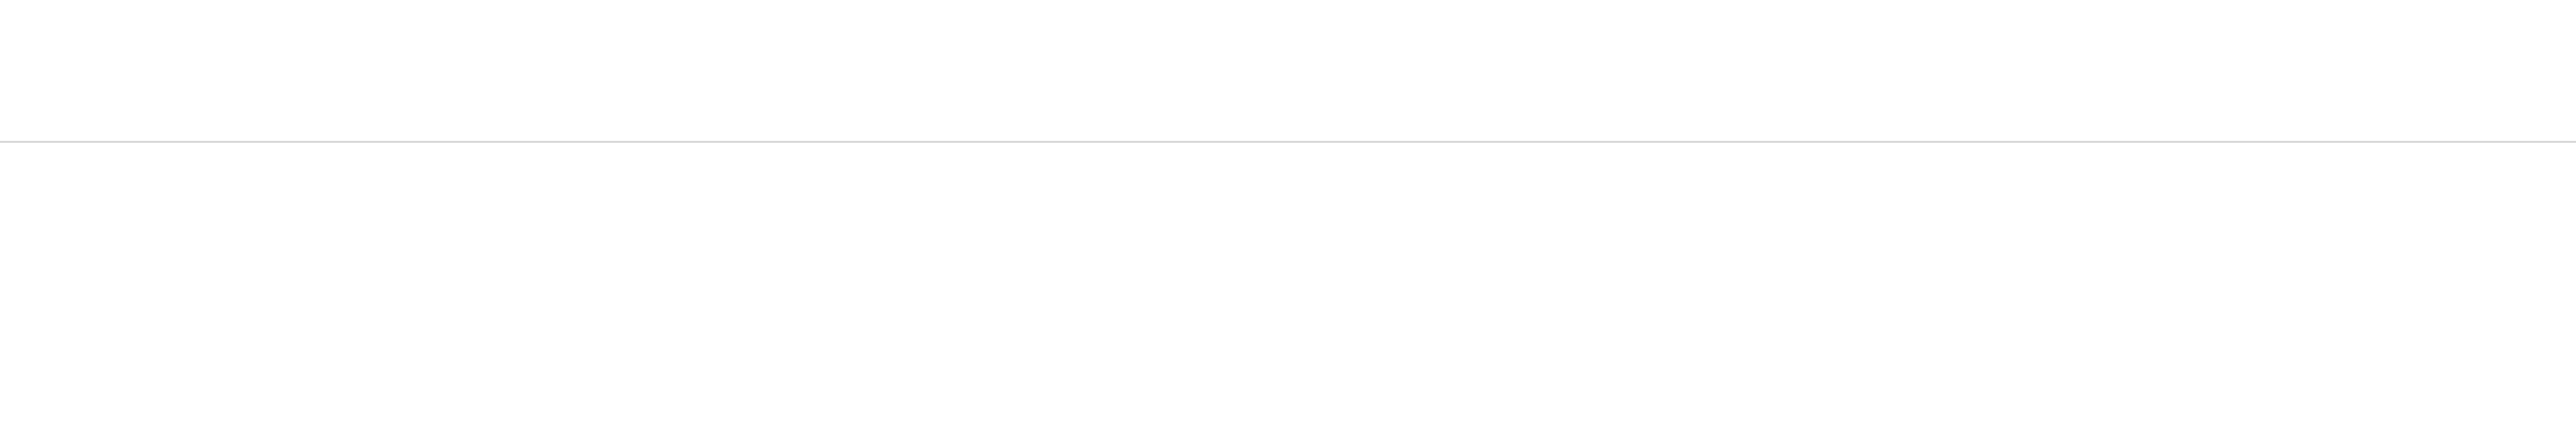

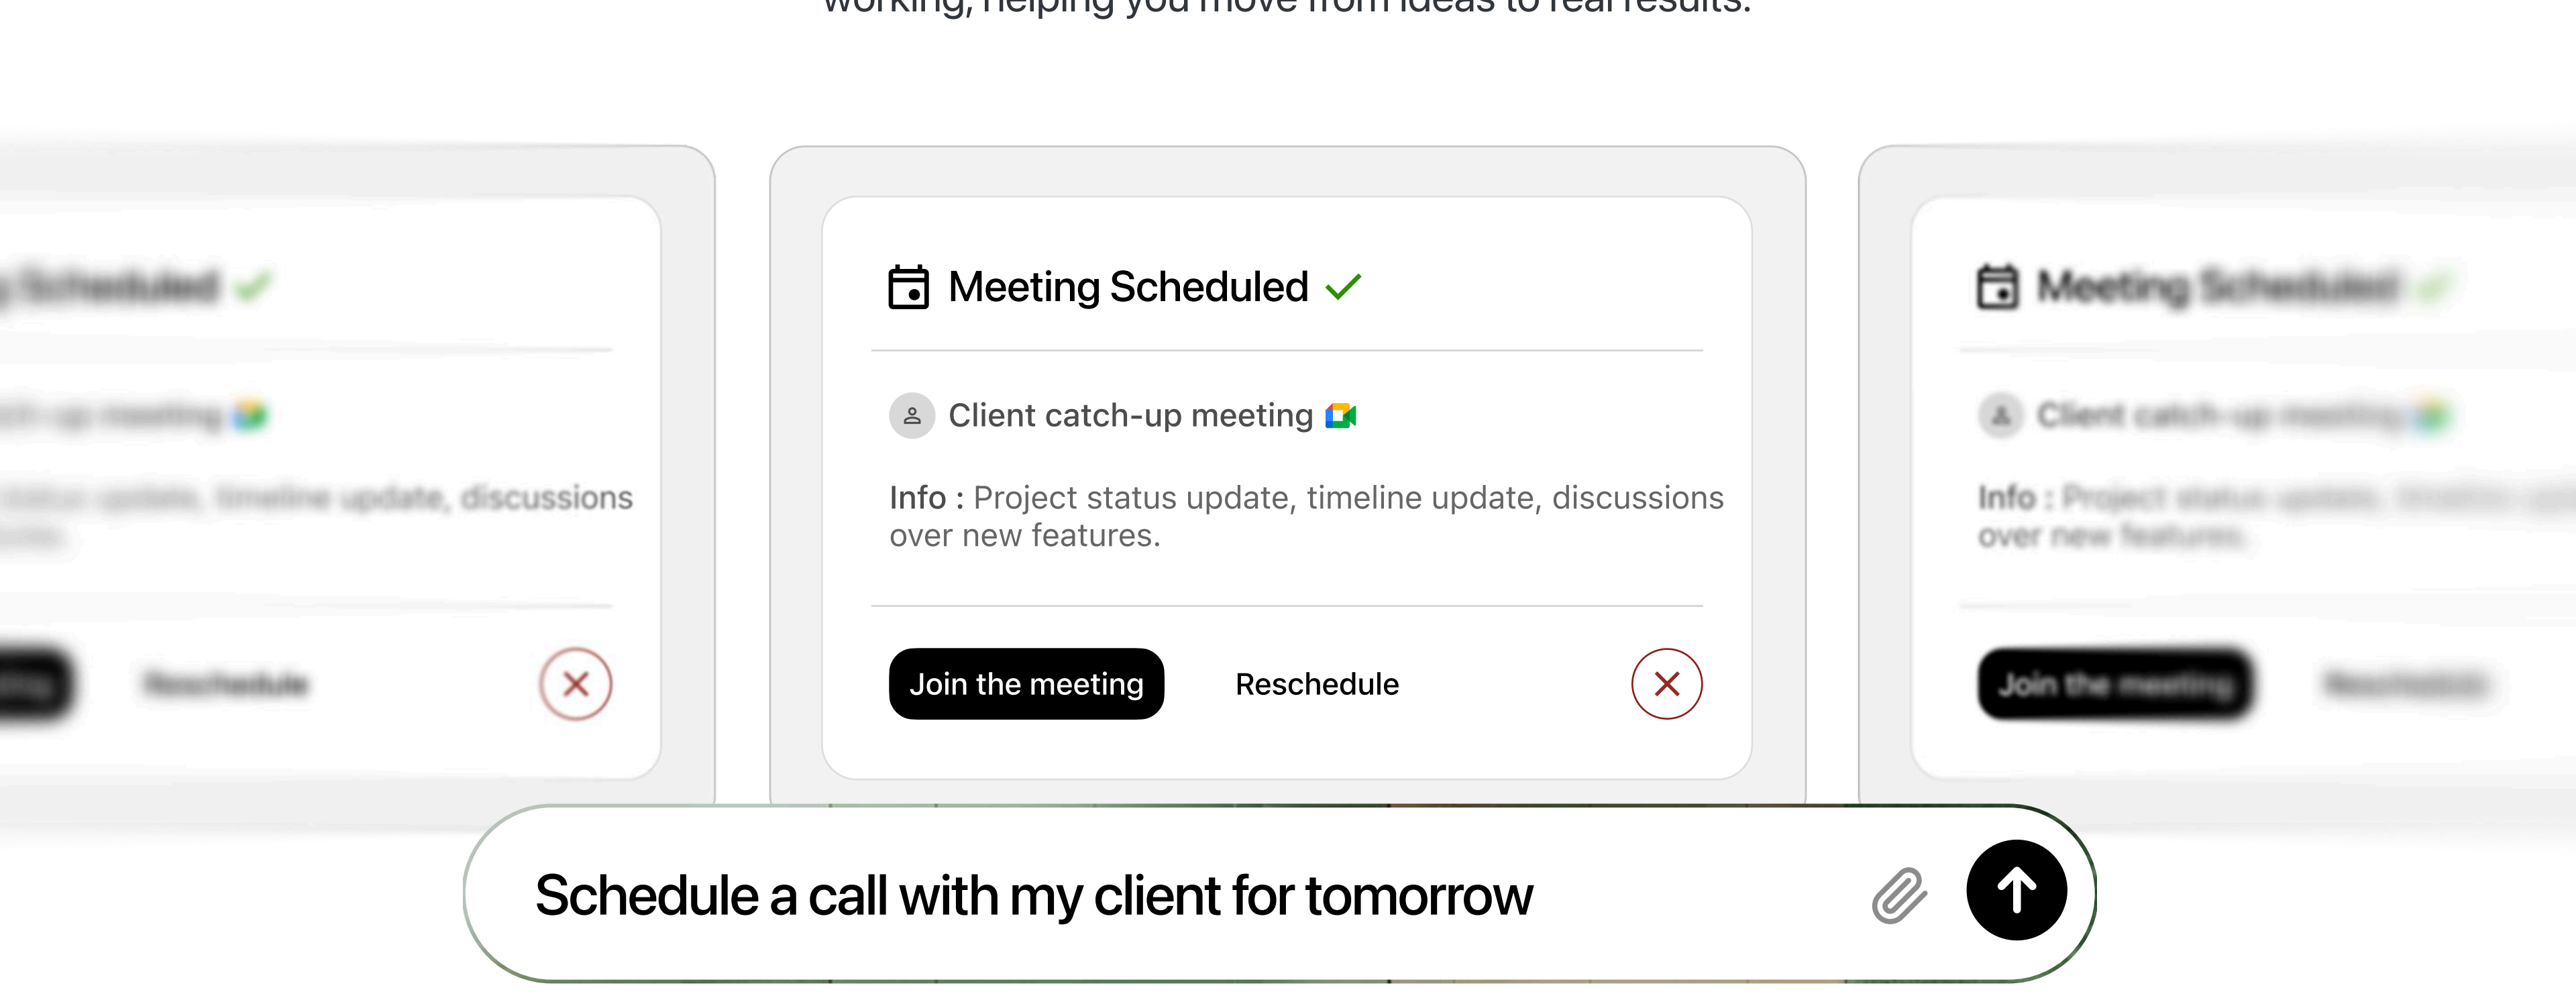

From one idea to a validated business.

Built to help you grow, not just generate.

Most AI tools stop after giving suggestions. OpennMind keeps working, helping you move from ideas to real results.

Start building for free. Scale when you're ready.
